# Tiny, Dazzling, and Eco-Friendly

## Exclusively from Jablonex

Perfect for embroidery, jewelry, fashion design, accessories and decorative arts.

We are proud to introduce our newest addition to the Jablonex Recycled Beads collection : **2mm recycled glass beads**, meticulously produced to meet the highest standards of quality, consistency, and environmental responsibility.

How is this new product:

**2mm diameter** ideal for fine embroidery, haute couture, and detailed beadwork.

**100% recycled glass**, carefully processed to ensure premium durability and resistance.

**Eco-Conscious Manufacturing**, produced with reduced environmental impact, offering a sustainable alternative without compromising on aesthetic appeal

**Lightweight yet strong**, suitable for both delicate fabrics and structured designs.

**Environmentally responsible**, supporting sustainable production practices in every bead

Jablonex 2mm recycled glass beads represent the perfect synergy of craftsmanship and sustainability, offering designers and creators a premium choice for eco-friendly, high-precision beadwork.

## General info

### CERTIFICATES

Our product is in compliance with REACH standards. We provide REACH certificate on demand.

### ENVIRONMENT

Jablonex® manufacturing facilities utilize the latest environmentally friendly production technology and meets all regulations. When used for their intended purpose all products are free of health hazards.

### WARNING

Slight changes in colours are due to natural properties of glass unavoidable.

### DIRECTIONS OF USE

Kindly take into account the specific properties of products: small beads ought to be kept away from kids (hazardous to swallow and to inhale). Larger glass products should be protected against breakage (danger of sharp pieces of glass)

### COLOUR FASTNESS

Beads are colour fast when stored in a dry and dark place. When used for common garment and jewellery applications beads maintain the same colour.

### OTHER IMPORTANT SPECIFICATIONS

Colour range (including coatings) as per standard colour card issued by Jablonex® other colours upon request. Delivery subjected to order confirmation, for production check MOQ. Beads are delivered in standard packing.

### STORAGE

The shelf life of beads will increase when stored in a dry and dark place.

## Specific uses info

### WASHING

Colour washing cycle with temperature up to 40°C (100F) and non-bleach washing liquid will not affect beads.

### COSMETICS

Ordinary cosmetics do not affect the glass and surface treatment. The surface layer does not dissolve, Neither the glass nor the surface treatment chemically interacts with fabrics or the skin. Some coatings may be harmed in accessories like bracelets with high level of abrasion by contact with clothes and skin.

### PERSPIRATION

When used for usual decorative purposes, beads are not negatively affected by perspiration. The surface treatment remains stable.

### DECORATIVE PURPOSES

Beads are colour fast when in a dry and dark place. The constant exposure to the sun and humidity might produce changes in the colours and coatings applied to the surface of the beads.
